Contacts

You have 2 phonebooks in this mobile phone: the SIM card and the mobile. The mobile can store 300 phone numbers and the SIM card's capacity depends on its type.

In standby mode, enter a number, press the call key to make a call, press the OK key to save.

◆ If 'To SIM 1/2' is selected, users can edit name and number of the contact.

◆ If 'To phone' is selected, the user can edit the name, mobile number, image, ringtone, and caller groups of the contact.

In the phone book list, the list on the left displays a small icon indicating that the record exists on the SIM card or mobile phone. The list on the right is the record of the name and number information.

In the address book, options are as below:

[New]: Create a record to phone or SIM

[Import/Export]: Copy/Import/Export records to T-Card or phone

[Others]

[Memory status]: Discover the current SIM card and mobile phone storage capacity.

Call Logs

You can view your recent call situation.

[Missed calls]: Shows list of all missed calls. You can view the date, time, and phone number after a missed call.

[Dialed calls]: Shows list of all dialed calls. You can view the date, time, and phone number of dialed calls.

[Received calls]: Shows list of all answered calls. You can view the date, time, and telephone number of received calls.

[Rejected calls]: Shows list of all calls you have rejected. You can view the date, time, and phone number of rejected calls.

Press the OK soft key to enter the options menu.

You then have these options to choose from:

- ◆ Details: View the current contacts call date, time, type.
- ◆ Call: Call the current contacts number.
- ◆ Write message: You can write and send SMS messages.
- ◆ Add to contacts: You can add or update contacts to your contact list.
- ◆ Add to blacklist: You can add contacts to your

blacklist.

- ◆ **Delete:** Delete the currently selected record.
- ◆ **Delete all:** Delete all call records.
- ◆ **Mark:** Set to mark the selected rejected calls.

[Delete all]: Delete all call records.

[Call times]: Displays duration statistics of all calls dialed and received.

[GPRS counter]: Displays the SIM card GPRS data.

[Delete]: Delete the selected account.

[Edit]: Edit the currently selected account.

[GPRS service]: Choose to open or close GPRS service.

[Data connection settings]: Set when to connect.

[Network selection]: Choose auto or manual network selection.

Message

The messaging function requires network service. Sending and receiving text can only be used when the service is supported by your network operator.

You can send ordinary text messages. The SMS is sent to the text messages center in the network firstly, and then to the target user. If the receiver's mobile is power off or cannot receive messages, the network will store the message temporarily. Storage duration is determined by the user configuration and the service provider.

The message will be directly stored in the SIM card if the capacity is not full. A blinking icon at the head row of the main screen will be displayed if the capacity is full.

If the Text message has been sent to the receiver, a beep will sound. (If the tone for text messages and message report is activated).

[Write message]

[New SMS]

- ◆ Send: Enter the number of the recipient or locate recipient in the phonebook.
- ◆ Insert template: Choose to insert template.
- ◆ Add contact info: Insert the contact person.
